

## May 20<sup>th</sup> Follow Ups

**Q: Customers asked whether or not the LSRCP is capitalizing non-routine maintenance.**

A: All Lower Snake River Compensation Plan program costs are expensed, including but not limited to non-routine extraordinary maintenance costs.

**Q: CRFM study - break out of costs for construction of physical assets vs. costs for studies**

A: The Corps analysis in both NWP and NWW is we have 25%-35% of research that does not relate directly support on the ground implemented projects but is a system ecosystem research benefit or research that did not result in a direct implementation.
