Categorical Exclusion Determination
Bonneville Power Administration
Department of Energy

Proposed Action: Cornerstone Project Property Acquisition and Stewardship Funding

Fish and Wildlife Project No. and Contract No.: 2011-003-00; BPA-8680

Project Manager: Sandra Fife – KEWM-4

Location: Polk County, OR

Categorical Exclusion Applied (from Subpart D, 10 C.F.R. Part 1021): B1.25 Real property transfers for cultural resources protection, habitat preservation, and wildlife management

Description of the Proposed Action: BPA is proposing to fund Polk Soil and Water Conservation District to purchase the Cornerstone Project, an 87-acre parcel of land located 5 miles north of Dallas in Polk County, OR. BPA would hold a conservation easement to prevent the conversion of fish and wildlife habitat on the property to other land uses. BPA would also provide stewardship funds toward maintenance of the property to the landowner, Polk Soil and Water Conservation District.

This funding partially fulfills commitments made in the 2010 “Willamette River Basin Memorandum of Agreement Regarding Wildlife Habitat Protection and Enhancement between the State of Oregon and the Bonneville Power Administration.” This is part of BPA’s ongoing efforts to mitigate for the impacts to fish and wildlife of the construction and operation of Federal flood control facilities in the Willamette River Basin. Placing this property in a conservation easement would provide long-lasting wildlife benefits as part of a growing network of conservation lands in the Willamette Valley that are preventing the conversion of fish and wildlife habitat to other land uses.

The property consists primarily of oak savanna habitat, which is important for the continued preservation of the ESA-listed Fender’s blue butterfly and is utilized by over 150 plant and animal species, including key species such as sandhill crane, western bluebird, and Vesper’s sparrow. Polk Soil and Water Conservation District would develop a management plan to guide the protection and enhancement of habitat and other resources on the property. The management plan would be reviewed by BPA for consistency with the conservation easement and the purpose of the acquisition. If BPA proposes to fund any additional activities on the property, further environmental review may be conducted.

Findings: In accordance with Section 1021.410(b) of the Department of Energy’s (DOE) National Environmental Policy Act (NEPA) Regulations (57 FR 15144, Apr. 24, 1992, as amended at 61 FR 36221-36243, July 9, 1996; 61 FR 64608, Dec. 6, 1996, 76 FR 63764, Nov. 14, 2011), BPA has determined that the proposed action:

1) fits within a class of actions listed in Appendix A of 10 CFR 1021, Subpart D (see attached Environmental Checklist);
2) does not present any extraordinary circumstances that may affect the significance of the environmental effects of the proposal; and
(3) has not been segmented to meet the definition of a categorical exclusion.

Based on these determinations, BPA finds that the proposed action is categorically excluded from further NEPA review.

Attachment(s): Environmental Checklist
Categorical Exclusion Environmental Checklist

This checklist documents environmental considerations for the proposed project and explains why the project would not have the potential to cause significant impacts on environmentally sensitive resources and would meet other integral elements of the applied categorical exclusion.

**Proposed Action:** Cornerstone Project Property Acquisition and Stewardship Funding

**Project Site Description**

The 87-acre Cornerstone Project property is currently privately owned and BPA will fund its purchase by Polk Soil and Water Conservation District at closing; Willamette Valley oak habitat is dominant, and is located in Polk County, Oregon.

**Evaluation of Potential Impacts to Environmental Resources**

**Evaluation of Other Integral Elements**

The proposed project would also meet conditions that are integral elements of the categorical exclusion. The project would not:

- Threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, or similar requirements of DOE or Executive Orders.

   **Explanation, if necessary:**

- Require siting and construction or major expansion of waste storage, disposal, recovery, or treatment facilities (including incinerators) that are not otherwise categorically excluded.

   **Explanation, if necessary:**

- Disturb hazardous substances, pollutants, contaminants, or CERCLA excluded petroleum and natural gas products that preexist in the environment such that there would be uncontrolled or unpermitted releases.
Involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeds, or invasive species, unless the proposed activity would be contained or confined in a manner designed and operated to prevent unauthorized release into the environment and conducted in accordance with applicable requirements, such as those of the Department of Agriculture, the Environmental Protection Agency, and the National Institutes of Health.

Landowner Notification, Involvement, or Coordination

Description: Notification letters will be sent to adjacent landowners and other interested parties at a minimum of 15 days before the closing date (proposed closing date 9/30/16) of the sale. Advertisements will also be posted in local newspapers, and information will be posted on BPA’s public website prior to closing.

Based on the foregoing, this proposed project does not have the potential to cause significant impacts on any environmentally sensitive resources.
