**Proposed Action:** Deep Creek Property Acquisition and Stewardship Funding

**Project No.:** 1995-057-00, BPA-011785

**Project Manager:** Hannah Dondy-Kaplan – EWM-4

**Location:** Bonneville County, Idaho

**Categorical Exclusion Applied (from Subpart D, 10 C.F.R. Part 1021):** B1.25 Real property transfers for cultural resources protection, habitat preservation, and wildlife management

**Description of the Proposed Action:** Bonneville Power Administration (BPA) is proposing to fund the Idaho Department of Fish and Game (IDFG) to purchase the Deep Creek property, which is a 1,162-acre parcel of land located 14 miles east from Idaho Falls in Bonneville County, Idaho. BPA would hold a conservation easement to permanently protect, mitigate, and enhance fish and wildlife and their habitat. BPA would also provide stewardship funds toward land management and maintenance of the property to IDFG.

Funding the purchase of the properties and long-term stewardship would serve as partial mitigation for the construction and operation of the Federal Columbia River Power System, which includes dams on the main stem Columbia and Snake Rivers. This land purchase would specifically satisfy some of BPA’s commitments made in the Southern Idaho Wildlife Mitigation MOA.

The property consists of sagebrush/bitterbrush shrub steppe with aspen pockets and riparian drainages. The IDFG would develop a land management plan to guide the protection and enhancement of habitat and other resources on the property. The land management plan would be drafted within 18 months of closing. The management plan would be reviewed by BPA for consistency with the conservation easement and the purpose of the acquisition. If BPA proposes to fund any additional activities on the property, further environmental review may be conducted.

**Findings:** In accordance with Section 1021.410(b) of the Department of Energy’s (DOE) National Environmental Policy Act (NEPA) Regulations (57 FR 15144, Apr. 24, 1992, as amended at 61 FR 36221-36243, Jul. 9, 1996; 61 FR 64608, Dec. 6, 1996, 76 FR 63764, Nov. 14, 2011), BPA has determined that the proposed action:

1) fits within a class of actions listed in Appendix B of 10 CFR 1021, Subpart D (see attached Environmental Checklist);
2) does not present any extraordinary circumstances that may affect the significance of the environmental effects of the proposal; and
3) has not been segmented to meet the definition of a categorical exclusion.
Based on these determinations, BPA finds that the proposed action is categorically excluded from further NEPA review.

Attachment(s): Environmental Checklist
Categorical Exclusion Environmental Checklist

This checklist documents environmental considerations for the proposed project and explains why the project would not have the potential to cause significant impacts on environmentally sensitive resources and would meet other integral elements of the applied categorical exclusion.

**Proposed Action:** Deep Creek Property Acquisition and Stewardship Funding

**Project Site Description**

The property is at an elevation of about 5,800 feet and is composed of grasslands, upland shrub, riparian and aspen habitat. It is one of three regional strongholds for Columbian sharp-tailed grouse (*Tympanuchus phasianellus columbianus*) and provides terminal winter range for mule deer (*Odocoileus hemionus*) and transitional/summer habitat for big game.

**Evaluation of Potential Impacts to Environmental Resources**

1. **Historic and Cultural Resources**
   
   Potential for Significance: No
   
   **Explanation:** There would be no effect due to the land acquisition, which includes transfer of title and development of a conservation easement. To the extent that future activities on the property may have an effect, it is expected that the IDFG would comply with all applicable laws and regulations.

2. **Geology and Soils**
   
   Potential for Significance: No
   
   **Explanation:** See explanation for #1 above.

3. **Plants (including Federal/state special-status species and habitats)**
   
   Potential for Significance: No
   
   **Explanation:** See explanation for #1 above.

4. **Wildlife (including Federal/state special-status species and habitats)**
   
   Potential for Significance: No
   
   **Explanation:** See explanation for #1 above.

5. **Water Bodies, Floodplains, and Fish (including Federal/state special-status species, ESUs, and habitats)**
   
   Potential for Significance: No
   
   **Explanation:** See explanation for #1 above.

6. **Wetlands**

   Potential for Significance: No

   **Explanation:** See explanation for #1 above.
7. **Groundwater and Aquifers**

Potential for Significance: No

Explanation: See explanation for #1 above.

8. **Land Use and Specially-Designated Areas**

Potential for Significance: No

Explanation: See explanation for #1 above.

9. **Visual Quality**

Potential for Significance: No

Explanation: See explanation for #1 above.

10. **Air Quality**

Potential for Significance: No

Explanation: See explanation for #1 above.

11. **Noise**

Potential for Significance: No

Explanation: See explanation for #1 above.

12. **Human Health and Safety**

Potential for Significance: No

Explanation: See explanation for #1 above.

**Evaluation of Other Integral Elements**

The proposed project would also meet conditions that are integral elements of the categorical exclusion. The project would not:

**Threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, or similar requirements of DOE or Executive Orders.**

Explanation: N/A

**Require siting and construction or major expansion of waste storage, disposal, recovery, or treatment facilities (including incinerators) that are not otherwise categorically excluded.**

Explanation: N/A

**Disturb hazardous substances, pollutants, contaminants, or CERCLA excluded petroleum and natural gas products that preexist in the environment such that there would be uncontrolled or unpermitted releases.**

Explanation: N/A
Involve genetically engineered organisms, synthetic biology, governmentally
designated noxious weeds, or invasive species, unless the proposed activity would
be contained or confined in a manner designed and operated to prevent
unauthorized release into the environment and conducted in accordance with
applicable requirements, such as those of the Department of Agriculture, the
Environmental Protection Agency, and the National Institutes of Health.

Explanation: N/A

**Landowner Notification, Involvement, or Coordination**

**Description:** A public notification letter and map of the property would be mailed to neighboring
landowners, stakeholders, and relevant elected officials and other interested parties
prior to the property closing. Advertisements would also be placed in local newspapers,
and information would be posted on BPA’s website.

Based on the foregoing, this proposed project does not have the potential to cause significant impacts to
any environmentally sensitive resource.
