REPLY TO ATTN OF: KEC-4

SUBJECT: Environmental Clearance Memorandum

TO: Dorie Welch
Project Manager – KEWM-4

**Proposed Action:** Coyote Oaks Property Acquisition Funding

**Fish and Wildlife Project No.:** 2011-003-00, BPA-007521

**Categorical Exclusion Applied (from Subpart D, 10 C.F.R. Part 1021):** B1.25 Real Property transfers for cultural protection, habitat preservation, and wildlife management.

**Location:** Cheshire quadrangle, in Lane County, Oregon (near Eugene, Oregon).

**Proposed by:** Bonneville Power Administration (BPA)

**Description of the Proposed Action:** BPA is proposing to fund the McKenzie River Trust purchase of the Coyote Oaks property (Property), a 148-acre parcel of land located to the northwest of Eugene in Lane County, Oregon.

This funding supports commitments made in the 2010 “Willamette River Basin Memorandum of Agreement Regarding Wildlife Habitat Protection and Enhancement between the State of Oregon and the Bonneville Power Administration”. This is part of BPA’s ongoing efforts to mitigate for the impacts to fish and wildlife of the construction and operation of federal flood control facilities in the Willamette River Basin. Placing this property in a conservation easement would provide long-lasting wildlife benefits as part of a growing network of conservation lands in the Willamette Valley by preventing the conversion of fish and wildlife habitat to other land uses.

The Property consists of approximately 148 acres of Willamette Valley riparian habitat. ESA-listed species found on site include Bradshaw's lomatium (*Lomatium bradshawii*), Willamette daisy (*Erigeron decumbens var. decumbens*), Fender's blue butterfly (*Icaricia icariodes fenderi*), and Kincaid's lupine (*Lupinus sulphureus ssp. kincaidi*). In addition, there are 13 Federal Species of Concern (four plant and nine animal species) found on or near the property.

McKenzie River Trust would provide long-term stewardship for the land and would develop a management plan to guide protection and enhancement of habitat and other resources on the property. BPA and Oregon Department of Fish and Wildlife would review the management plan and BPA would approve it. Before funding any management activities on the property, BPA would conduct further environmental review.

**Findings:** BPA has determined that the proposed action complies with Section 1021.410 and Appendix B of Subpart D of the Department of Energy’s (DOE) National Environmental Policy Act (NEPA) Regulations (57 FR 15144, Apr. 24, 1992, as amended at 61 FR 36221-36243, July 9, 1996; 61 FR 64608, Dec. 6, 1996, 76 FR 63764, Nov. 14, 2011). The proposed action does not present any extraordinary circumstances that may affect the significance of the environmental effects of the proposal. The proposal is not connected [40 C.F.R. 1508.25(a)(1)] to other actions with potentially significant
impacts, has not been segmented to meet the definition of a categorical exclusion, is not related to other proposed actions with cumulatively significant impacts [40 C.F.R. 1508.25(a)(2)], and is not precluded by 40 C.F.R. 1506.1 or 10 C.F.R. 1021.211. Moreover, the proposed action would not (i) threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, (ii) require siting and construction or major expansion of waste storage, disposal, recovery, or treatment facilities, (iii) disturb hazardous substances, pollutants, contaminants, or Comprehensive Environmental Response, Compensation and Liability Act-excluded petroleum and natural gas products that pre-exist in the environment such that there would be uncontrolled or unpermitted releases, (iv) have the potential to cause significant impacts on environmentally sensitive resources, or (v) involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeds, or invasive species, unless the proposed activity would be contained or confined in a manner designed and operated to prevent unauthorized release into the environment and conducted in accordance with applicable requirements.

This proposed action meets the requirements for the Categorical Exclusion referenced above. We therefore determine that the proposed action may be categorically excluded from further NEPA review and documentation.

Environmental Checklist for Categorical Exclusions
Environmental Checklist for Categorical Exclusions

Name of Proposed Project: Coyote Oaks Property Acquisition Funding

Work Order #: Project 2011-003-00, Contract # BPA-007521

This project does not have the potential to cause significant impacts on the following environmentally sensitive resources. See 10 CFR 1021, Subpart D, Appendix B for complete descriptions of the resources. This checklist is to be used as a summary – further discussion may be included in the Categorical Exclusion Memorandum.
